

# Refuelling Dispensers

IFC manufactures a wide range of dispensers from 100 to 900 litres per minute. They are built with flow-meters and pumps contained inside a strong stainless or treated steel cabinet with a wide range of accessories such as hose reels, filter-water separators, extra by-pass for double flow-rates, mechanical and electronic read out, pulsers, etc. IFC has the flexibility to suit any specification a Customer may require.

## Features

- Trade and Standards approved or low cost flow meters available
- Hose reel inside or outside the cabinet
- Various different couplers available for:
  - Marine
  - Rail
  - Road Vehicle
- Stainless Steel or powder Coated mild steel cabinet
- Multiple stations with fully electronic control available

## Benefits

- Cost effective fuelling solution
- Up to five year guarantee of key components for total product confidence
- Low down time and maintenance costs
- 95% Spares held Ex-Stock
- Five UK wide trained engineers available for on-site service

## Applications

- Boat refuelling in marinas
- Public Transportation vehicles such as buses
- Big truck fleets
- Trains
- Military vehicles
- Light aircraft for over-wing refuelling
- Light aircraft for under-wing refuelling

## Technical Data

**Flow Rates:** 100 to 900 Litres/Minute

**Cabinet:** Powder Coated or Stainless Steel

**Meter Type:** Electronic or Mechanical

**Connection:** Various to suit all applications

## Industrial Flow Control Limited

Unit 1 Askews Farm Lane  
Grays, Essex RM17 5XR

Telephone : 01375 387155  
Telefax : 01375 387420  
Email : sales@inflow.co.uk

## BATCHING (drum filling unit)

Trolley batching for solvents with electronic register

- **DFU120:** trolley batching 120 lit/min
- **DFU200:** trolley batching 200 lit/min
- **DFU250:** trolley batching 250 lit/min (\*)  
(\*) the flow-rate can be changed on request

### OUTFIT ACCESSORIES

- Celloflex hose in aspiration, 5 meters.
- Celloflex hose in delivery, 10 meters.
- SAMPI Pneumatic Nozzle 980, Ø 34 or Ø 50.

## MA Systems

Systems with a pump and flow-meter, for heavy-duty dispenser for bus terminals, truck companies, train locomotives.

model	flow
MA200	150 or 200 l/min
MA300	300 l/min
MA500	450 l/min
MA700	700 l/min

## MA-R Systems

Systems with a pump, flow-meter and hose

model	flow
MA200-R	150 or 200 l/min
MA300-R	300 l/min
MA500-R	450 l/min

## MA-SG Systems

Systems with flow-meter and hose reel but no pump. Pump can be submersible or remote.

model	flow
MA200-SG	150 or 200 l/min
MA300-SG	300 l/min
MA500-SG	450 l/min

## MA-AVIO Systems for Aviation

Series with pump, flow-meter, hose reel and special filter for avio application.

model	flow
MA150-AVIO	150 l/min
MA200-AVIO	200 l/min
MA380-AVIO	380 l/min
MA760-AVIO	760 l/min
